

# CONTENTS

---

<b>Preface</b>	<b>ix</b>
What's New in the Fourth Edition	ix
What You'll Need	x
Your Roadmap to Android/iOS Development	x
How This Book Is Organized	xi
Part I, "Overview of Mobile App Development"	xi
Part II, "Developing the Android App"	xi
Part III, "Developing the iOS App"	xii
Part IV, "Business Issues"	xii
Appendices	xii
About the Sample Code	xii
Getting the Sample Code	xiii
Typographical Conventions	xiii
Instructor Resources	xiii
Acknowledgments	xiv
Contacting the Authors	xiv
About the Authors	xiv
<b>PART I      Overview of Mobile App Development</b>	<b>1</b>
<hr/>	
<b>Chapter 1    Why Mobile Apps?</b>	<b>1</b>
Transformative Devices	1
Reaching Customers	2
Changing Business Process	4
Making Money	5
Summary	7
Exercises	7
<b>Chapter 2    App Design Issues and Considerations</b>	<b>9</b>
App Design	9
Operating System Design Issues	9
Android Life Cycle	9
iOS Life Cycle	11
Screen Size and Orientation Issues	12
Connectivity Issues	13
Battery Issues	13
Hardware Issues	14
Device Differences	15
Android	15
iOS	16
Introducing Your First App	16
Contact Screen	17
Contact List Screen	17
Map Screen	18
Settings Screen	18
Summary	18
Exercises	20

<b>PART II</b>	<b>Developing the Android App</b>	<b>21</b>
<b>Chapter 3</b>	<b>Using Android Studio for Android Development</b>	<b>21</b>
Starting a New App		21
Starting a New Project		21
Creating the Project		22
Components of the IDE		24
Editor Panel		24
Project Panel		24
Resource Folders		25
The Android Manifest		25
Interpreting the XML		26
Gradle Scripts		27
Configuring the Emulator		28
Setting Up Run Configurations		29
Coding the Interface		30
Initial Run of Hello World		35
Coding App Behavior		35
Adding Code		37
Summary		38
Exercises		39
<b>Chapter 4</b>	<b>Android Navigation and Interface Design</b>	<b>41</b>
Activities, Layouts, and Intents		41
The Activity Class		41
Layout		42
Intents		42
Creating the Interface		42
Create the Project		43
Set the Launch Icon		44
Create the Navigation Bar		44
Create the Contact Layout		46
Create the Toolbar		47
Create the Data Entry Form		48
Create the Dialog Layout		56
Activating the Interface		58
Code the Navigation Bar		58
Code the ToggleButton		60
Code the DatePicker Dialog		61
Summary		64
Exercises		64
<b>Chapter 5</b>	<b>Persistent Data in Android</b>	<b>67</b>
Preferences, Files, and Database		67
Preferences		67
Files		67
Databases		68
Using Preferences		68
Create the Settings Layout		68
Code the Page's Behavior		70
Using Files		72
Creating the Database		73
Create the Database Helper Class		73
Create the Data Source Class		74
Using the Database		78
Capture User-Entered Data		79

Save User-Entered Data	80
Use the Debugger	83
Summary	85
Exercises	85
<b>Chapter 6 Lists in Android: Navigation and Information Display</b>	<b>89</b>
Lists, Adapters, ViewHolders, and LayoutManagers	89
Simple Lists	90
Create the Data Source Method	90
Create the Layout	91
Create the Adapter	91
Code the Activity	93
Complex Lists	96
Create the Data Source Method	96
Create the Layout	97
Modify the Adapter	98
Code the Activity	99
Completing the ContactList Activity	100
Populating the MainActivity Screen	101
Coding the New Contact Button	104
Add Delete Functionality	104
Sort the Contacts List	108
Set ContactListActivity as the Default Activity	109
Set MainActivity as Default Activity with no Contacts in Database	110
Summary	110
Exercises	110
<b>Chapter 7 Maps and Location in Android</b>	<b>113</b>
Location Sensors, Maps, and Fragments	113
Location Sensors	113
Maps	114
Fragments	114
Finding Your Location	114
Geocoding: Get Coordinates from an Address	114
Get Coordinates from the GPS Sensor	116
The New Android Permissions Model	118
Get Coordinates from the Network Sensor	123
Setting Up for Maps	125
Setting Permissions for the Map	128
Get Coordinates from the Map	128
Displaying Your Contacts' Locations	132
Switching Map Type	135
Summary	136
Exercises	136
<b>Chapter 8 Access to Hardware and Sensors in Android</b>	<b>139</b>
Sensors, Managers, and Other Hardware	139
Sensors	139
Managers	140
Other Hardware	140
Monitoring the Battery	140
Using Sensors to Create a Compass	142
Using the Phone	144
Using the Camera	148
Summary	155
Exercises	155

<b>PART III</b>	<b>Developing the iOS App</b>	<b>157</b>
<hr/>		
<b>Chapter 9</b>	<b>Using Xcode for iOS Development</b>	<b>157</b>
	Creating the Xcode Project	157
	Editor Area	160
	Navigation Area	161
	Creating the User Interface	161
	Running the App in the Simulator	164
	Creating Advanced Layout	164
	Adding App Behavior	166
	Dismissing the Keyboard	169
	App Icons and Launch Images	170
	Testing iOS Apps on Physical Devices	171
	Summary	174
	Exercises	174
<b>Chapter 10</b>	<b>iOS Navigation and Interface Design</b>	<b>177</b>
	Views and Controllers	177
	View Controller	178
	Tab Bar Controller	178
	Navigation Controller	178
	Creating the Interface	178
	Creating the Project	178
	Creating the Views	179
	Auto Layout	183
	Design the Contacts Screen	183
	Add Navigation Controller for the Date Screen	189
	Activating the Interface	191
	Troubleshooting Connections	193
	Summary	194
	Exercises	194
<b>Chapter 11</b>	<b>Persistent Data in iOS</b>	<b>197</b>
	UserDefaults	197
	File Data Storage	197
	Core Data	197
	Storing the Settings	198
	Creating the Settings Interface	198
	Working with the UserDefaults Object	201
	Activating the Settings Interface	202
	Global Constants	204
	Using Files	205
	Setting Up Core Data	206
	Designing the Data Structure	207
	Saving Contact Data	209
	Passing Data Between Controllers	211
	Step 1: Set Up Delegate Protocol	213
	Step 2: Add Delegate Property	213
	Step 3: Specify That Main View Will Implement Delegate Protocol	213
	Step 4: Implement the Methods of the Delegate Protocol	213
	Step 5: Set Up Main Controller as Delegate	214
	Step 6: Call the Delegate Methods from the Subview	215
	Debugging in Xcode	216
	Use the Debugger	216
	Summary	218
	Exercises	218

<b>Chapter 12 Tables in iOS: Navigation and Information Display</b>	<b>221</b>
Overview of Tables	221
Setting Up Tables	222
Populate the Table with Data	222
Retrieve Data from Core Data	224
Adding Contact Data	226
Display Detailed Data	226
Reloading Table Data	229
Deleting Records	230
Alert Controller	231
Sort the Table	233
Summary	234
Exercises	234
<b>Chapter 13 Maps and Location in iOS</b>	<b>237</b>
Overview of Location and Mapping	237
Hardware and Sensors	237
Location Frameworks	237
Adding Location Information to the App	238
Finding Location—Forward Geocoding	238
Finding the Device Location	242
Asking for Permission	242
Adding a Map	247
Display the User’s Location on the Map	247
Adding Annotations to the Map	249
Display Contacts on the Map	251
Zooming to Show Annotations	252
Switching between Map Types	253
Summary	253
Exercises	253
<b>Chapter 14 Access to Hardware and Sensors in iOS</b>	<b>257</b>
Getting Device Information	257
Monitoring Battery Status	259
Controlling the Camera	261
Calling a Phone Number	265
Long Press Gesture	265
Checking OS Version Number	266
Using Core Motion for Accelerometer Data	268
Summary	270
Exercises	270
<b>Chapter 15 Monetizing Apps</b>	<b>273</b>
App Monetization Strategies	273
Paid Apps	273
Ad Supported Apps	274
In-App Purchases	274
Subscriptions	275
Understanding the Economics of App Stores	275
Owning Your Own Business	276
Create an LLC	276
Plan Your Business	276
Other Income Possibilities	277
Choosing a Platform	277
Summary	278
Exercises	278

<b>Chapter 16 Publishing Apps</b>	<b>279</b>
App Distribution through the App/Play Stores	279
Android Play Store Distribution	280
iOS App Store Distribution	283
App Distribution for the Enterprise	285
Android Enterprise Distribution	285
iOS Enterprise Distribution	285
Testing and Fragmentation	286
Keeping Up with the Platform	287
Summary	288
Exercises	288
<b>Appendix A Fixing Code Issues Using Android Studio</b>	<b>289</b>
Improving the Code	289
Analyzing the Code	289
Fixing Issues	290
<b>Appendix B Introduction to Swift</b>	<b>293</b>
Getting Started: On the Playground	293
Variables and Constants	294
Arrays and Dictionaries	295
Control Flow	296
Optional Variables	297
Declaring and Calling Functions	298
Function Types and Closures	299
Classes and Structs	300
Inheritance and Protocols	303
Completion Handlers	303
<b>Index</b>	<b>305</b>
