

Contents

Preface			viii
PART I INTRODUCTION TO UNDERSTANDING BUSINESS ANALYTICS			1
Chapter 1 What Is Business Intelligence, Analytics, and Artificial Intelligence?			1
The Evolution of Business Intelligence, Analytics, and Artificial Intelligence	1	The Analytics Applications “Stack”	4
Analytics versus Transactional Systems	3	Summing It Up	4
Further Exploring Analytics	3	Questions	5
		References and Further Reading	5
Chapter 2 The Skills Needed for Analytics			6
The Demand for Analytics Producers	6	Organizing for Analytics	10
Is Analytics for You?	6	The Solutions Delivery Team at Equifax	11
The Three Skills Needed for Analytics	7	Summing It Up	11
The Varying Skills Analytics Consumers and Producers Need	7	Questions	12
Additional People Involved in Analytics	9	References and Further Reading	12
Chapter 3 Supporting Business Strategies with Analytics			13
Market Disruption	13	Responding to a Problem: First American Corporation	16
Business Strategies	14	The Payoff from Analytics	16
Different Targets for Analytics	14	Summing It Up	16
A Market Necessity: Amazon.com and Overstock.com	15	Questions	17
Seizing an Opportunity: Harrah’s	15	References and Further Reading	17
Chapter 4 Enduring Keys to Analytics Success			18
Project Success Factors	18	References and Further Reading	24
Application Development Success	20	Assignment	24
The Simplicity/Flexibility Trade-Off	23	Questions	25
Questions	24		
Part I Cases			26
Case 1 Organizing for Customer-Facing Analytics at Equifax			26
Case 2 Harrah’s High Payoff from Customer Information			30
Case 3 Data Warehousing Supports Corporate Strategy at First American Corporation			36
Case 4 Analytics at RetailStore.com			48
PART II DESCRIPTIVE ANALYTICS			57
Chapter 5 Decision Support Systems			57
DSS Defined	57	DSS Examples	60
DSS Characteristics	57	The Continuing Evolution of Decision Support	62
The DSS Reference Architecture	58	Questions	62
Institutional and Ad Hoc DSS	60	References and Further Reading	62
Chapter 6 “Slicing and Dicing” Data with OLAP			63
Online Analytical Processing	63	OLAP Data Management	65
OLAP for New Car Sales	63	Performance Is Critical	66
OLAP Is Everywhere and Is Powerful	65	Questions	67
Behind the Curtain	65	References and Further Reading	67

Chapter 7 Meeting the Information Needs of Executives			68
Illustrating the Possible Information in an EIS	69	Summing It Up	76
An EIS Screen	70	Questions	76
The EIS at the World Bank	71	References and Further Reading	76
Chapter 8 Analytics Portal Provides a Window for Accessing Information			77
About Mozilla	77	Next Steps	81
The Business Need	77	Keys to Success	81
The Approach Taken	78	Why the Portal Is Successful	82
Moving Forward	78	Questions	82
The Analytics Portal's Contents	78	References and Further Reading	82
Data Quality and Governance	80		
Chapter 9 Selecting the Best Visualizations			83
A Brief History of Data and Information Visualization	83	Data and Information Visualization Software	94
The Power of Visualizations	84	Summing It Up	94
Preattentive Attributes	84	Questions	94
Different Kinds of Visualizations	85	References and Further Reading	95
Chapter 10 Data and Information Visualization, Data Interpreters, and Storytelling			96
Visualization: Information versus Data	96	Storytelling	98
Two Stories	96	Summing It Up	99
The Takeaways	97	Questions	99
What Research Tells Us	97	References and Further Reading	99
The Data Interpreter	98		
Chapter 11 Dashboards and Scorecards to Monitor, Evaluate, and Motivate Performance			100
What Is a Dashboard?	101	Advanced Dashboard Capabilities	105
Why Dashboards Are Built	101	Scorecards	106
Building Dashboards	101	Strategy Maps	107
Who Builds Dashboards	103	Top-Down versus Bottom-Up Development	107
Determining Dashboard Information Requirements	103	Questions	108
Choosing the Right Performance Metrics	103	References and Further Reading	108
Designing Effective Dashboards	104	Assignment	108
Chapter 12 Data Literacy Is Self-Service Analytics' Missing Link			109
The Long Path	109	Summing It Up	112
Data Literacy	110	Questions	112
The Last Mile	111	References and Further Reading	112
Self-Service Artificial Intelligence	112		
Part II Cases and Software Projects			113
Case 5 How Metrics Motivate at 1-800 CONTACTS			113
Case 6 Piedmont Healthcare's Dashboards Deliver Information			117
Software Project 1 CountThings DSS			120
Software Project 2 Tableau Problem Identification			126
Software Project 3 Tableau Interactive Dashboard			128

PART III CREATING THE ANALYTICS TECHNOLOGY INFRASTRUCTURE	129		
Chapter 13 Selecting Analytics Software	129		
Tools and Platforms	129	The Need to Control Software Proliferation	131
BI and Analytics Platforms	129	AI Is a Game Changer	132
Commercial and Open-Source Software	130	The Analytics Software Selection Process	132
Small and Big Fish	130	Questions	136
Excel	131	References and Further Reading	136
Chapter 14 Data Marts and Warehouses Provide a “Single Version of the Truth”	137		
Data Marts, Warehouses, and Warehousing	137	Data Warehousing in the Cloud	145
Getting Started	139	Data Marts and Warehouse Users	146
Data Extraction, Transformation, and Loading	139	Data Warehousing at Owens & Minor	146
Metadata	143	Questions	147
Data Warehouse Architectures	144	References and Further Reading	147
Chapter 15 Creating the Big Data Infrastructure	148		
What Is Big Data?	148	The Data Warehouse Is Not Dead	158
Big Data Sources	149	Which Platform Is Best?	159
Big Data Analytics	149	Integrating the Various Platforms	159
Examples of Big Data Analytics	149	A Contemporary Analytics Reference Architecture	159
The Benefits of Big Data Analytics	151	A Data Mesh	160
The Requirements for Being Successful with Big Data Analytics	151	A Data Fabric	160
A Strong Data Infrastructure	151	Questions	161
		References and Further Reading	161
Part III Cases	163		
Case 7 Continental Airlines Flies High with Real-Time Business Intelligence	163		
Case 8 U.S. Xpress: Where Trucks and BI Hit the Road	171		
PART IV ANALYTICS PROJECT LIFE CYCLE	175		
Chapter 16 ROI and Getting Analytics Projects Approved	175		
ROI Can Mean Different Things	175	Make the Benefits Believable	177
Addressing the “Organizational Pain”	175	Considerations for Getting Analytics Projects Approved	177
Preparing the Proposal	176	Questions	178
Pre- and Postimplementation	177	References and Further Reading	178
Assessing the Benefits and Costs	177		
Chapter 17 Analytics Project Success Is in the Eye of the Beholder	179		
A Research Study	179	Project Fatigue	181
Expectations	179	Summing It Up	181
Client/Contractor Relationship	180	Questions	182
Sponsor Commitment	180	References and Further Reading	182
Politics	181		
Chapter 18 A Deep Dive into the Analytics Life Cycle	183		
Members of the Analytics Team	183	Questions	189
The Analytics Life Cycle	184	References and Further Reading	189
Summing It Up	188		

PART V PREDICTIVE ANALYTICS		191
Chapter 19 Predictive Modeling for Supporting Decision-Making and Improving Organizational Performance		191
Predictive Analytics Is Different from OLAP	191	How the IRS Decides Who to Audit 194
Diapers and Beer	192	Questions 195
Different Approaches to Predictive Analytics	192	References and Further Reading 195
Common Kinds of Information Generated by Predictive Analytics	193	
Chapter 20 The CRISP-DM Methodology for Building Predictive Models		196
Business Understanding	196	Final Evaluation 203
Data Understanding	197	Deployment 204
Data Preparation	197	Questions 205
Modeling	198	References and Further Reading 205
Chapter 21 Finding Patterns and Relationships with Machine Learning		206
Understanding Machine Learning	206	Deep Learning 212
Neural Networks and Deep Learning Are Difficult to Understand	209	From a Cottage Industry to a Factory Approach 212
Neural Networks	209	The MLOps Approach 214
Predicting Machine Failures at NCR	210	MLOps Steps 215
How They Are Trained	210	Questions 216
		References and Further Reading 216
Part V Software Project		217
Software Project 4 BigML Predictive Modeling		217
PART VI ARTIFICIAL INTELLIGENCE		219
Chapter 22 Artificial Intelligence and Its Applications		219
The History of AI	219	Software Agents and Virtual Assistants 225
Natural Language Interfaces	221	Infusion of AI into Analytics Tools and Platforms 227
Chatbots	221	Expert Systems 228
Visualization Systems	222	The Future of AI 232
Robots	222	Questions 234
Robot Process Automation	224	Assignment 234
Self-Driving Vehicles	224	References and Further Reading 235
Chapter 23 Using and Building Generative AI Applications		236
The Major Players	236	Advanced Generative AI Changes the Game for Companies 248d
What Is Generative AI?	238	Advantages and Disadvantages of Generative AI 248e
A Reference Architecture for Generative AI	238	Generative AI Uses 248f
Creating Effective Prompts	242	Responding to Customer Complaints 248g
Custom GPTs	247	Summing It Up 248g
ChatGPT Projects	248	Questions 248h
Reasoning and Deep Research	248b	References and Further Reading 248h
Agents	248c	
A Framework for the Progression of Generative AI	248d	
Chapter 24 Managing Artificial Intelligence		249
A Maturity Model Perspective of Decision Support	249	AI Is Entering through the “Front and Back Doors” 251
The AI Generation of Decision Support	250	Questions 258
Recommendations for Preparing for the AI Generation	251	References and Further Reading 258

PART VII PRESCRIPTIVE ANALYTICS	259
Chapter 25 Monte Carlo Simulation	259
Three Kinds of Decision-Making	259
Deterministic and Probabilistic Methods of Analysis	260
Basic Inventory Concepts	260
A Fixed-Order Quantity Model	261
A Monte Carlo Inventory Simulation	263
Questions	269
References and Further Reading	270
Chapter 26 Optimization Using Linear Programming	271
Formulating a Problem Mathematically	271
Solving Linear Programming Problems Using the Graphical Method	275
Possible Multiple Solutions or No Solutions	280
Integral Solutions	280
Limitations of the Graphical Method	280
The Simplex Method	280
Online Simplex Method and Excel Add-In	280
Questions	281
References and Further Reading	283
PART VIII BUSINESS INTELLIGENCE, ANALYTICS, AND AI GOVERNANCE	285
Chapter 27 Getting Started with Business-Driven Data Governance	285
What Is Data Governance?	285
A Business-Driven Starting Point	285
Identify the Core Problem	287
Taking Responsibility	287
Top Down and Bottom Up in Concert	287
A Journey Rather Than a Destination	287
Organizing for Data Governance	288
Rules of the Road	288
Summing It Up	289
Questions	289
References and Further Reading	289
Chapter 28 Avoid Being Creepy in the Use of Personal Data and Algorithms	290
The Creepiness Scale	290
ACM Recommended Principles	291
Best Practices	291
Summing It Up	294
Questions	294
Assignment	295
References and Further Reading	295
PART IX CAREERS IN ANALYTICS	297
Chapter 29 Career Opportunities in Analytics	297
Starting Your Professional Career	297
Becoming an Analytics Director	300
Starting an Analytics Consulting Firm	303
Questions	305
References and Further Reading	306
Index	307
Additional Acknowledgments	316
